About the Company

REMIF REMS Nigeria Ltd is an agro-based firm offering professional services to government and non-governmental agencies, public and private sector institutions, and international organizations in the areas of data analyses, manpower development, research, business development, and extension service delivery.

Co-Investment Partnership

The Trade Hub awarded a \$499,000 grant to REMIF REMS to support rice farmers in the southern region of Nigeria, whose crops are vital to ensuring food security in the country. Through this partnership, REMIF REMS will co-invest \$702,537 to mobilize 3,000 contract rice farmers in Ebonyi and Cross River States to produce 30,000 metric tons of clean paddy rice on 3,000 hectares of farmland. In addition to providing the land to farm the rice, REMIF REMS will secure fertilizers, seeds, insecticides, and simple farming equipment such as rice threshers for the rice farmers. Training in COVID-19 health and safety measures will also be offered. Read more [here](#).

Partnership Opportunities

Rice is a staple crop in Nigeria, with about 7.1 million metric tons consumed yearly in the country. Partnerships that support increased rice production are crucial to combating food security in Nigeria, particularly during the pandemic, and improving the livelihoods of rice farmers. Partnerships are also key to promoting economic growth in the country. REMIF REMS expects to achieve at least \$17.6 million in total paddy rice sales to processors/off-takers over the life of the project, and \$22 million in total sales of rice products processed, packaged, and distributed through processors.
